

Glowball

Our baselit RSRB
Illuminate / De-illuminate?
We've got it covered

Glowboll™

Key Features

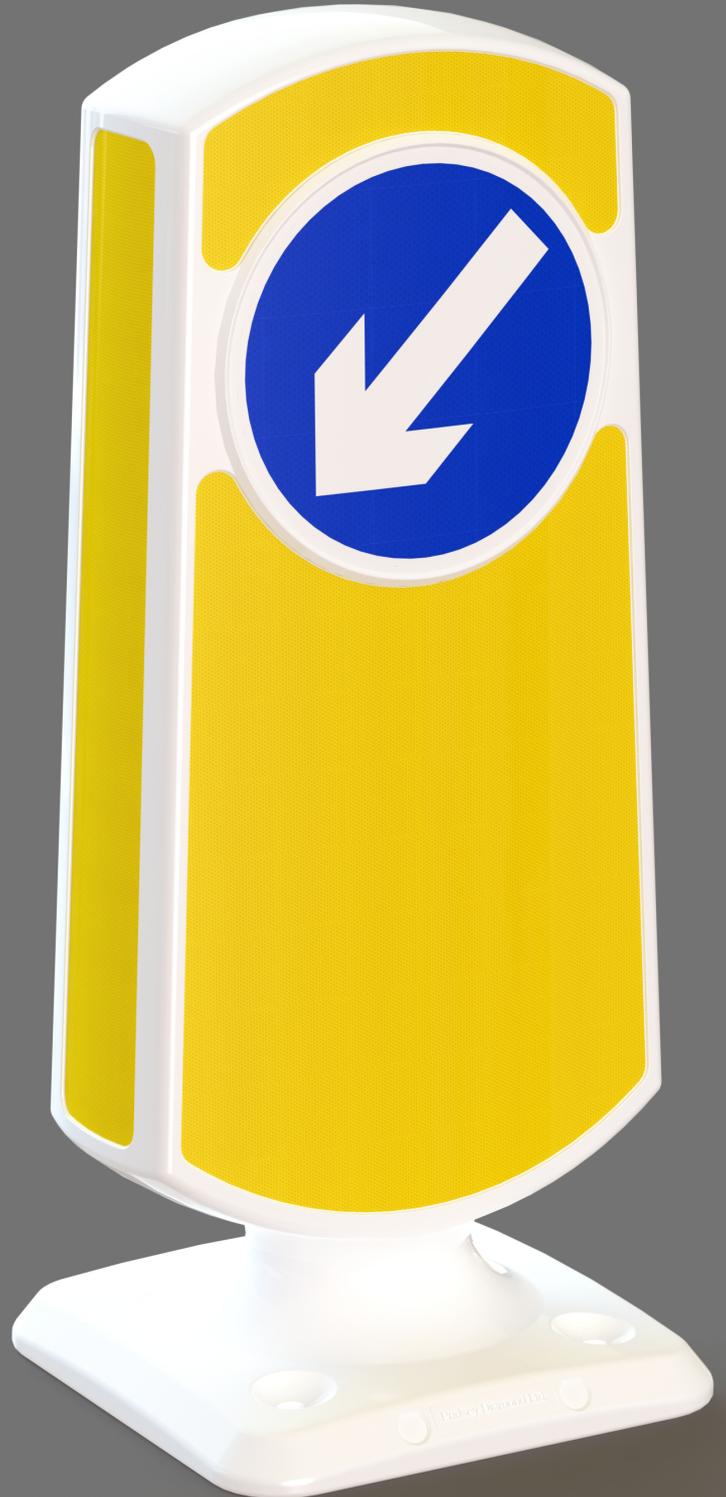

- **Base lit** - Retrofittable to existing base light installations.
- **Adaptable** - will act as a reflective bollard when not lit.
- **Retroreflective panels** - gives excellent visibility day or night.
- **Regulations** - Designed to BS EN 12899-2: 2007 / BS 8442:2015
- **Reliable** - Moulded from a highly durable & exceptionally strong grade of polyethylene.

Additional Features

- **270mm Signface** - Range of standard signfaces available.
- **Recessed panels** - Added protection against vandalism and weathering.
- **Double aspect** - Reflective panels can be fitted to both front and back of the bollard.
- **Low Maintenance** - smooth finish allows for easy cleaning.
- **Consistency** - Designed to sit alongside Pudsey Diamond, Visaboll™, Solaboll™ & Powaboll™ to give a uniform street scene.
- **Flexible** - The flexible material used ensures the bollard will always stand upright, even after multiple impacts
